

Pre-Class Preparation for LaTeX Session

Dear Students,

As part of our upcoming class on **Think. Write. Publish. - A Research Writing & LaTeX Bootcamp**, you are requested to complete the following **preclass preparations** before attending the session. This will help us use the class time effectively for hands on learning.

Online Overleaf account creation is mandatory and must be completed before the class.

1. Create an Overleaf Account Mandatory – Online LaTeX Platform)

- Website: <https://www.overleaf.com/>
- Create a **free account** using your Google account or college email ID
- Ensure you can log in successfully

➤ The **LaTeX Project Report Template** can be accessed from the shared Google Drive folder:

Project Report LATEX

➤ It is recommended to **bring your laptop** with the offline LaTeX software installed (if possible).

(Offline installation is optional but recommended for better practice.)

2. Install LaTeX (Optional – Offline Setup)

Step 1: Install MiKTeX

- Download link: <https://miktex.org/download>
- Select **MiKTeX for Windows**
- During installation:
 - Choose **A4** as paper size
 - Allow installation of missing packages when prompted

Step 2: Install TeXstudio

- Download link: <https://www.texstudio.org>
- Install using default settings
